# WHAT COMMUNITY-LED DEVELOPMENT LOOKS LIKE

**Francesco Arezzo**  
*President, Rotary International,*  
*2025-26*

*Sometimes it means listening, working collaboratively, and amplifying the voices of others. That approach lies at the heart of Rotary's philosophy and our lasting impact on economic development."*

October is Rotary's Community Economic Development Month, a time to spotlight our efforts to help communities build thriving, sustainable futures. This month's observance aligns perfectly with the Rotary core value of leadership.

Leadership means empowering people to guide their own progress. That is precisely what Rotary's economic development projects aim to achieve. Take, for example, a recent initiative in southern India in which Rotary members unlocked the power of women of the Adivasi tribal groups through sewing training to earn a living and regain social inclusion.

Historically, widows and abandoned women in this region lose social standing and are shunned by society or blamed for their misfortunes. Opportunities to support themselves or obtain training are minimal.

This year, the Rotary Club of Windsor-Roseland,

Ontario, partnered with clubs in Districts 3203 and 3234 in India — and with the Indian organization Sevalaya Trust — to provide sewing machines and training to 80 Adivasi women. They learned to stitch saree blouses, kurta tunics, and salwar suits, enabling them to support themselves and their families. Each woman received a certificate for completing the program, and the sewing-machine provider offered free long-term maintenance for the machines. The project offered vital income and dignity to women ostracized by society after widowhood.

This story is one example of Rotary leadership in action: local people guiding solutions that address their community needs. Our role is not to deliver charity or to impose outside models, but to foster self-reliance by investing in leadership, skills, and sustainable enterprise.

This October, I invite Rotary members worldwide to reflect on economic leadership in their communities.

Who is stepping forward to lead local economic initiatives? Where is there untapped talent that could be supported with training or mentorship? How can

your club catalyze opportunity through partnerships with local businesses, vocational schools, or savings groups? Leadership is not always about being visible.

Sometimes it means listening, working collaboratively, and amplifying the voices of others. That approach lies at the heart of Rotary's philosophy and our lasting impact on economic development.

By building capacity — whether through microcredit groups, vocational training workshops, or entrepreneurship programs — we enable communities to lead their own transformation. When people take ownership of their progress, change becomes sustainable.

Let us lead with good intention and provide support with heart. By nurturing local leadership, we can create opportunities that ripple through communities, empowering individuals, families, and societies.

Together, we can support economies that work for everyone and enact community development projects that last.

Rotary Year 2025–2026

*A major milestone for me personally was my first official visit to Tanzania. The energy was electric, the fellowship heartfelt, and the ideas flowing. It was a joy to induct new members and recognize the powerful work being led by Tanzanian clubs. Your passion and generosity continue to unite us in service through one act at a time."*

Fellow Rotarians,

September was a month of meaningful service and powerful connections. Every club I visited reminded me of what makes Rotary truly extraordinary, not just our projects, but our shared purpose.

Thank you for the warm welcome always and for embracing the \$100 Pin TRF donation campaign. The pin you receive is not just symbolic; it is a promise and representation to a child staying in school, a health center that never runs out of supplies, and a small business taking its first confident steps. Every contribution is a seed of hope, planted with purpose.

Across the district, I have witnessed Rotary in action especially in Maternal and Child Health projects. These are not just handouts; they are systems designed for long-term impact. I have seen clubs building sustainable models of care,

and I am deeply grateful to each of you who has embraced the call to support mothers and newborns this Rotary year.

I take this opportunity to welcome you all back from the Fusion Summit held in Brussels, where our districts proudly received numerous accolades in Membership growth, polio giving and the Rotary Foundation. Congratulations to all of you and in particular, to my predecessor, PDG Agnes Batengas for her outstanding leadership. The other highlight was our Major Donor Dinner in Uganda. It was a truly inspiring evening organized by PAG Peter Kagwa. We gathered to honor those whose consistent giving keeps our mission alive. I extend my sincere appreciation to the organizing committee and to every member who made the event a success.

A major milestone for me personally was my first official visit to Tanzania. The energy was electric, the fellowship heartfelt, and the ideas flowing. It was a joy to induct new members and recognize the powerful work being led by Tanzanian clubs. Your passion and generosity continue to unite us in service through one act at a time.

Michael Manley once said, "Any realistic vision of change must be based on the notion of empowerment of people." In Rotary, that is what the month of October represents, Community and Economic Development. This is one of Rotary focus areas that I am not only passionate about but also deeply involved in through my daily work. I have witnessed firsthand how people can attain

financial independence and transform their lives and the lives of those they love.

At Green Light Investments, an organization I co-founded and manage, we work with communities at the bottom of the socio-economic pyramid, those often excluded from mainstream systems. We are fully committed to finding local solutions to uniquely local challenges, and in everything we do, we focus on adding value to our communities. We invest in innovation, access, and dignity. Likewise, at my home club the Rotary Club of Muyenga Tankhill we have been actively empowering women in the slums of Kabalagala proving that real change starts right where we are.

So, here is my challenge to every club: Create or strengthen one income-generating project(s) that directly benefits women, youth, or even your own members. This is not about grand gestures. It's about inclusion, smart, and sustainable investment through: Training, Mentorship, Micro-capital

and Market access. If your club already has such a project, make it stronger. Reach out to more people and deliver deeper impact.

Economic development is not theory, it's what someone takes home at the end of the day. It's whether they can pay school fees, afford medication or plan for a better tomorrow. From local marketplaces to training centers, and at every Rotary meeting, let us keep our message clear:

We rise by building systems that lift others.

Let us stay focused. Stay practical and above all stay committed to our goals and Values.

# MESSAGE FROM THE ACTION PRESIDENT

**Sam Colin Sali**  
*Action President*

The achievements of RC Bunga have come through commitment by our devoted members who started the ACTION year 2025-2026 faced with matching the Global Grant with 20% [USD \$12000] of \$ 59301 which had just been approved by RI. Paying the \$12000 along RI, District and Country DUES was a nightmare which we overcame anyway.

Thereafter, two huddles, however, confronted Bunga. The Treasurer and PR fell sick nearly at the same time in late July 2025, the former returning in mid September, while the PR is still unwell, leaving the Bunga Beacon Journal without an Editor and prompting the Club President to assume the role of highlighting our activities from 1st July to 31st October as Editor of the belated 4th edition.

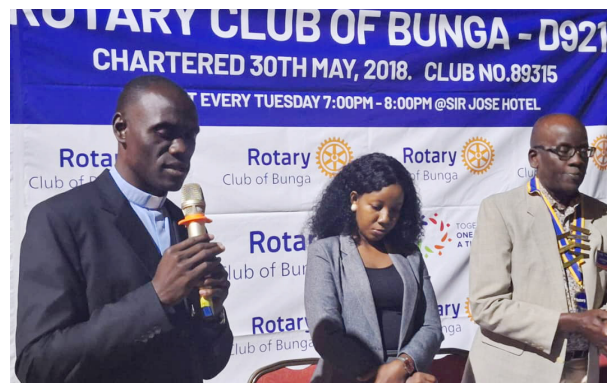

THE BEACON, 5TH EDITION IS OUT, ENJOY YOUR READING. THANK YOU.

On presentation of our assessment report, the TGUP organized the equipment ready for delivery. Nearly 500 adults were tested and screened for Aids, prostate cancer, pelvic cancer, blood sugar. Non communicable diseases were led by malaria and common cold coughs and breathing problems. We celebrate our 6th position in Polio+ Giving for October, D9214. WE NEED TO INCREASE THE SPEED AND OVERTAKE THOSE AHEAD OF US IF WE ARE TO ACHIEVE OUR TARGET.

## PROGRESS OF OUR MULTI CLUB GG2458157 KITANDA ROWASH PROJECT FROM LAUNCHING & GROUND BREAKING AT THE WATER SOURCE, ON FRIDAY 26TH SEPTEMBER 2025 UP TO END OF OCTOBER 2025.

Just for mention, our local multiclub GG partners are RC Muyenga Breeze, RC Muyenga Sunday Sunset and RC Kansanga. This project highlights the sorry state of clean water availability, in that a total distance of 5kms laying of a supply line has been completed from the water source up to Kayanja trading centre. The two reservoir tanks @10,000lts, are already up and standing in the compound of

Kitanda HC111, a strategic plan to ensure that the hospital is nearly assured of water. The beneficiary schools have been connected, awaiting commissioning. Haji & Hajati Kigongo, the couple who donated the land where the source was found, have also been connected. The community along the 5km trek has also, as agreed, NOT asked for compensation. Well done our pipo.

### SUMMARY OF BENEFICIARIES WHO HAVE BEEN REACHED AND CONNECTED READY FOR COMMISSIONING DAY TO SEE WATER IN THEIR NEW TAPS:
